SICHEM 2025

Offer scholarships!

We appreciate that the participation of young chemical engineers in scientific conferences is important for the development of their professional career. By participating in conferences of high scientific level young people can accumulate last-minute knowledge and at the same time will have the opportunity to know and establish relationships with renowned researchers in their field of training.

Considering these aspects and following the custom of Romanian RICCE and SICHEM events so far, at the level of Romanian Chemical Engineering Society it was decided to grant several 12 scholarships to participate in SICHEM 2025 event. They will be awarded to young chemical engineers, up to 35 years old, master or PhD students, members, or supporters of Romanian Chemical Engineering Society or of Romanian Chemical Society.

In order to be able to benefit from such a grant, the interested young people must send to the SICR address sicr@chim.upb.ro: i) the abstract of the work registered at the conference, ii) a letter of intent in which the candidate commits with the submission of the paper for publication in the Bulletin of Romanian Chemical Engineering Society (BDI indexed journal), before the conference date, iii) a brief recommendation of the scientific supervisor or other teacher who attests the master/ Ph.D. degree of the candidate. The deadline for submitting this information is October 15, 2025. The applications will be analyzed within the Romanian Chemical Engineering Society and the winners will be announced until October 20, 2025.

SICR President,

Prof. PhD. Eng. Tănase DOBRE
